

Utility line break protection

May 31, 2012 12:53 PM

Odessa homeowners can now have protection if their sewer line breaks.

The City of Odessa and the Service Line Warranties of America are offering residents a service line warranty program, which will provide low-cost warranty protection on sewer line breaks.

Residents will be able to purchase warranty protection of \$5.95 per month, which will cover sewer line repairs up to \$4,000 and an additional allowance of \$4,000 for public street cutting, if needed.

No public funds are being used to promote the program, which is offered at no cost to the City of Odessa.

Residents will see offers in their mail boxes soon.
