INTERIOR ELECTRIC

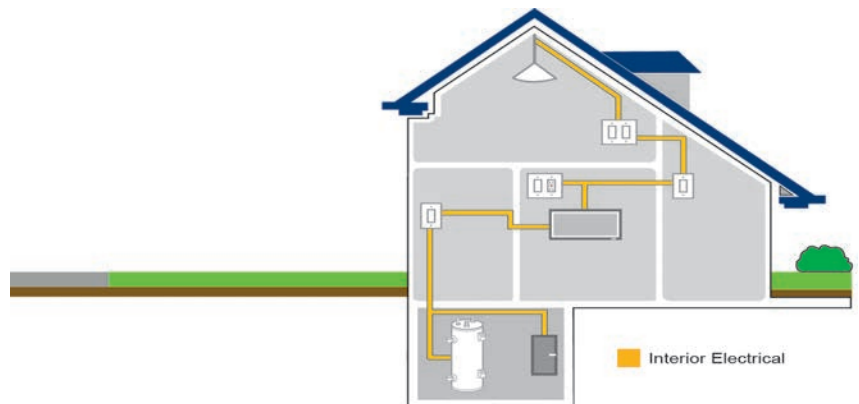

Faulty wiring and electrical components can cause fire hazards and power outages. Homeowners are responsible for the electrical systems inside their home, but finding qualified help for emergency repairs can be time-consuming and expensive. Over 120,000 US homeowners have this coverage, which has saved policyholders over \$6 million in repair expenses over the last three years.

PRODUCT FEATURES

- Coverage includes emergency breakdown repair costs of distribution center (panel or fuse box), faulty wiring to wall light, faulty or damaged electrical outlet, broken light switch, faulty or damaged GFCI outlet, faulty wiring to exhaust fan and other qualifying repairs to the wiring that carries electricity to points of use in the home
- High-quality repairs made by a licensed technician that comply with the most current rules and regulations, including specifications for materials

DIFFERENTIATORS

- Never any deductibles, call-out fees or pre-inspections required
- 24/7/365 live operators for claims and fast call-back and dispatch time – contractor will be on site within 3 hours for emergencies
- One-year guarantee on all covered repairs
- Optional enhancements: Fixtures and fittings, <80 amp service coverage

* Coverage can be customized according to Partner requirements and specifications.
